This just in... Testimonial from Grace Baptist Church of Groves.

“We at Grace Baptist Church of Groves, Texas are extremely pleased with the job Monument Constructors did on our flat roof. The Duro-Last application was started on time and completed prior to the estimated date of completion due to the diligent work and long hours put in by the Monument crew. The workers were very professional and skilled at their assignments. Charles Smith, who was point man for the job, was very knowledgeable, available and helpful in every way. Our total cost was about half the estimate we received to have a metal roof installed.

We are happy to recommend Monument Constructors for your roofing needs.”
